1 Introduction

Prerequisites & Goals Knowledge LaTeX

- Obviously some basic LaTeX knowledge is necessary
- Some more features will be provided here

Beamer

- You'll learn them by looking at this presentation source

Goal

- Learn how to make well structured slides
- Using a beautiful theme (congrats to the Oxygen team!)
- Take over the world
- Relax...

2 Basic structuring

Sections, Frames and Blocks Put everything into boxes

The current section is "Basic structuring".

A beautiful block A block has a title, and some content. You can put in a block almost everything you want that is provided by LaTeX. For example math works as usual:

$$\sum_{i=1}^{n} i = \frac{n \times (n+1)}{2} \tag{1}$$

Also works outside a block:

$$\sum_{i=1}^{n} i^2 = \frac{n \times (n+1) \times (2n+1)}{6} \tag{2}$$

Different type of blocks Weeeee! Colors!! Standard block

- A standard block, used for grouping
- Obviously can contain itemizes too...
  - And nested itemizes...
  - of course!

Alert block WARNING: Something very important inside this block! Note that examples are displayed as a special block...

3 Fancy features

.Highlighting Hey! Look here! here!

A regular block

- Normal text
- Highlighted text to draw attention
- "Alert'ed" text to spot very important information
- Alternatively you can
  - "Alert" the item itself
  - Or "Highlight" it

If it's very very important... ... you can "alert" in an "alertblock"
Ewww, nasty, heh?

.Overlay effects Keep the suspense! Time bomb

1. <2-> Two more to go
2. <3-> One more to go
3. <4-> Last chance...
4. <5-> BOOM!

"Animation"<6-> 0cm0cm7cm2cm <1-6> 1.4pt4pt(1,1)(2,1) <7> 1.4pt4pt(1,1)(4,1) <8> 1.4pt4pt(1,1)(6,1) <9> 1.4pt4pt(1,1)(8,1) <10> 1.4pt4pt(1,1)(10,1)

.Contributing to this beamer style We want you !

Why?

- Beamer is hot!
- This style deserves to be improved

How?

- Grab it
- Improve its LaTeX code
- Use you artistics skills
- Document it
- Help other people to use it
- Use it...

.Resources If you want to improve this style
