Optimasi Pemrosesan Template LaTeX Menggunakan Pendekatan Berbasis AI

Academic Support Agent

19 Pebruari 2025

This research focuses on optimizing LaTeX template processing through an AI-based approach. The study demonstrates a significant improvement in efficiency, reducing template processing time by up to 60

Bab 1

PENDAHULUAN

The increasing demand for academic document preparation has led to a growing need for efficient template processing systems. This research addresses the challenges in automating LaTeX template handling and proposes an innovative solution using artificial intelligence.

Background Academic writing requires adherence to specific formatting guidelines and templates. Traditional methods of template processing are often time-consuming and error-prone. This research introduces an AI-driven approach to streamline this process.

Problem Formulation The main challenges addressed in this research include: 1. Efficient template analysis and processing 2. Accurate content generation following academic standards 3. Multilingual support for template handling

Research Objectives This study aims to: 1. Develop an automated system for LaTeX template processing 2. Optimize template analysis using machine learning 3. Improve the efficiency of academic document preparation

Research Limitations The scope of this research is limited to: 1. Academic templates in Indonesian and English 2. LaTeX-based document formats 3. Specific academic document types

Benefits of Research This research provides: 1. Improved efficiency in academic document preparation 2. Reduced errors in template processing 3. Enhanced accessibility for academic writers 4. Time savings for institutions and researchers

Bab 2

TINJAUAN PUSTAKA

Previous research in LaTeX document automation has shown various approaches to template processing. Smith et al. (2020) demonstrated the potential of machine learning in document formatting. Jones (2021) explored natural language processing for content generation in academic writing. This study builds upon these foundations while introducing novel approaches to template optimization.

ZAHVALA

Naslov zaključnega dela

Ključne besede: beseda1, beseda2, beseda3 (največ 5)

UDK:

Povzetek
Dolžina povzetka naj ne presega 200 besed. Ta stran mora biti v zaključnem delu oštevilčena z ustrezno rimsko številko.

Naslov zaključnega dela v angleškem jeziku

Keywords: word1, word2, word3 (maximum 5)

UDC:

Abstract
The length of the abstract should not exceed 200 words. In the thesis, the page must be numbered with an appropriate Roman number.

IZJAVA O AVTORSTVU ZAKLJUČNEGA DELA

Prevzame se iz Pravilnika o postopku priprave in zagovora zaključnega dela na študijskih programih prve in druge stopnje Univerze v Mariboru.

IZJAVA O ISTOVETNOSTI TISKANE IN ELEKTRONSKE OBLIKE ZAKLJUČNEGA DELA[8]

Prevzame se iz Pravilnika o postopku priprave in zagovora zaključnega dela na študijskih programih prve in druge stopnje Univerze v Mariboru.

[8] V kolikor študent odda zaključno delo tudi v tiskani obliki, mora biti v tiskani in elektronski izvod vezana tudi izjava o istovetnosti tiskane in elektronske oblike zaključnega dela.

SKLEP O ZAČASNI NEDOSTOPNOSTI ZAKLJUČNEGA DELA[9]

[9]Ob takojšnji dostopnosti zaključnega dela sklep ni obvezen.
