Enter your abstract here. Ensure that your document is no longer than 1 page in length. It is a good idea to start your abstract with some background and motivation, then describe your approach and summarize the key results.

A figure is not mandatory, but an eye-catching graphic is always good to include if it helps getting your message across. Just make sure that the total length of the abstract is **no more than 1 page** (including references).

Figure 1: Sample figure.

Any references should appear together at the end of the abstract, listed alphabetically. Cite in the text using commands gargett1984,lilly1983 or [**?**].
