Abstract

write your abstract here

Introduction [lines=2, findent=3pt, nindent=0pt]In the frame of astronomical spectroscopy...

In Chapter we briefly present...

In Chapter 1 we summarize...
Near-infrared multi-object spectroscopy

1 Scientific Case

Over the last decades, innovative observational techniques have been developed to allow spectrographs observing... MOONS

2 The Very Large Telescope

Property of the European Southern Observatory...

3 The Multi-Object Optical and Near-infrared Spectrograph

The *Multi-Object Optical and Near-infrared Spectrograph* is a future generation MOS instrument for the VLT. Conclusions The grasping power of the mirror..
