Impact Statement

Some Cambridge Journals (such as our Prisms journals) require an Impact Statement section. Comment out this section if it is not required.

Plain Language Summary

Computational Humanities Research (CHR) requires a Plain Language summary (<500 words explaining research goals, methods, and findings in non-technical teams) alongside the Abstract. Comment out this section if not submitting to CHR.

This demo file is intended to serve as a "starter file". It is for preparing manuscript submission only, not for preparing camera-ready versions of manuscripts. Manuscripts will be typeset for publication by the journal, after they have been accepted.

By default, this template uses `biblatex` and adopts the Chicago referencing style. However, the journal you re submitting to may require a different reference style; specify the journal you're using with the class' `journal` option — see lines 1–9 of *sample.tex* for a list of options and instructions for selecting the journal. If you are using this template on Overleaf, Overleaf's build tool will automatically run `pdflatex` and `biber`. If you are compiling this template on your own local LaTeX installation, please execute the following commands:

1. `pdflatex sample`
2. `biber sample`
3. `pdflatex sample`
4. `pdflatex sample`
