This template follows the guidelines for abstract submission to the Manchester Phonology Meeting (MfM): 2

1 page maximum

A4 paper

2.5cm margins

single spacing

minimum 12pt font size

normal character spacing

optional full bibliography

IPA support
With the Doulos SIL or Charis SIL fonts, you can use IPA characters such as [β d θ t t s ǀ].

Examples can be provided like this: Types of anchoring Left-oriented Right-oriented Stress-dependent
Glosses can be provided like this: Example of *h-aspir* in standard French: [*]Un hacker [.na.k] sait utiliser un ordinateur. []Un hacker [.a.k] sait utiliser un ordinateur. Un hacker sait utiliser un ordinateur.
A hacker can use a computer

Here is how to cite [17]Chomsky1965 with parentheses around the year (and optionally the page, if provided as argument), [68]Chomsky1965 with parentheses around everything, or Chomsky1965 without parentheses. An author entry {van Beethoven, Ludwig} in *references.bib* is alphabetically ranked in the bibliography as starting with a **B**, but the author r4cm

entry {{van Beethoven}, Ludwig} is ranked as starting with a **V** vanBeethoven1824.

An image without a caption can be added with the simple command *includegraphics*; an image with a caption can be added with the same command within a *figure* environment; and an image placed left or right from the main text (as in this example) can be generated by using the same configuration but with a *wrapfigure* environment (and specifying the alignment and width of the image).

0.0pt
