IMG_1934.jpg

To some extent, with ‘markdown‘ package
- (Nested) bullet and numbered lists - Text formatting (*italic*, **bold becomes italic + alerted**) - Redefine

$_{\#\#\#_{t}ostartablockwithtitleand____{}_{t}oendtheblock-}{}_{C}ompilewith--shell-escape$

—-

Caveats
- Nothing too complicated!
- No verbatim or fragile stuff! - No #and _ characters! - (I used ‘#‘ and ‘_‘) - Alternatives: Pandoc, wikitobeamer

$_{(}Overleafdoesthisalready)$

—-

Overview
* This is the template I created for my poster presentations. [@novotny:2017]
* You can provide an optional `\footimage`. [@novotny:2019]

—-

Options
* It’s based on `beamerposter`, so you can change some

This is a sample
- One, two, pick up my shoe - Three, four, shut the door - Five, six, pick up sticks - Seven, eight, lay them straight - Nine, ten, a big fat hen - One, two, pick up my shoe - Three, four, shut the door - Five, six, pick up sticks - Seven, eight, lay them straight
