Contents

1. Section 1
   - Section 1 Subsection 1: Itemizing Part 1
   - Section 1 Subsection 2: Itemizing Part 2
   - Section 1 Subsection 3: Footnote Citing

2. Section 2
   - Section 2 Subsection 2: Equation
   - Section 2 Subsection 3: Multiple Equations

3. Add Picture or Figure

Section 1 Subsection 1: Itemizing Part 1

- Item 1
  - Item 1 Subitem 1
  - Item 1 Subitem 2
  - Item 1 Subitem 3
- Item 2
  - Subitem 1
    - Subsubitem 1
  - Subitem 2
    - This is marked subitem

      This is unmarked subitem

Section 2 Subsection 2: Itemizing Part 2

Step 1 This is step 1

Step 2 This is step 2

Step 3 Yuo can add small equation in text $y = mx + c$ or $x^3 = 2y$

Step 4 You can add a separate equation

$$|\Psi\rangle = \sum_i u_i |\varphi_i\rangle$$

Section 1 Subsection 3: Footnote Citing

- This is simple text
- This text is footnote cited [1]
- Add you resources in bibliography file

[1] [?]

Section 2 Subsection 2: Equation

Name of Some Theorem

$$\Psi(\vec{r}+\vec{R}) = e^{i\vec{k}\cdot\vec{R}}\Psi(\vec{r}) \tag{1}$$

Where

- $\vec{R}$ is somethin
- $\vec{k}$ is something

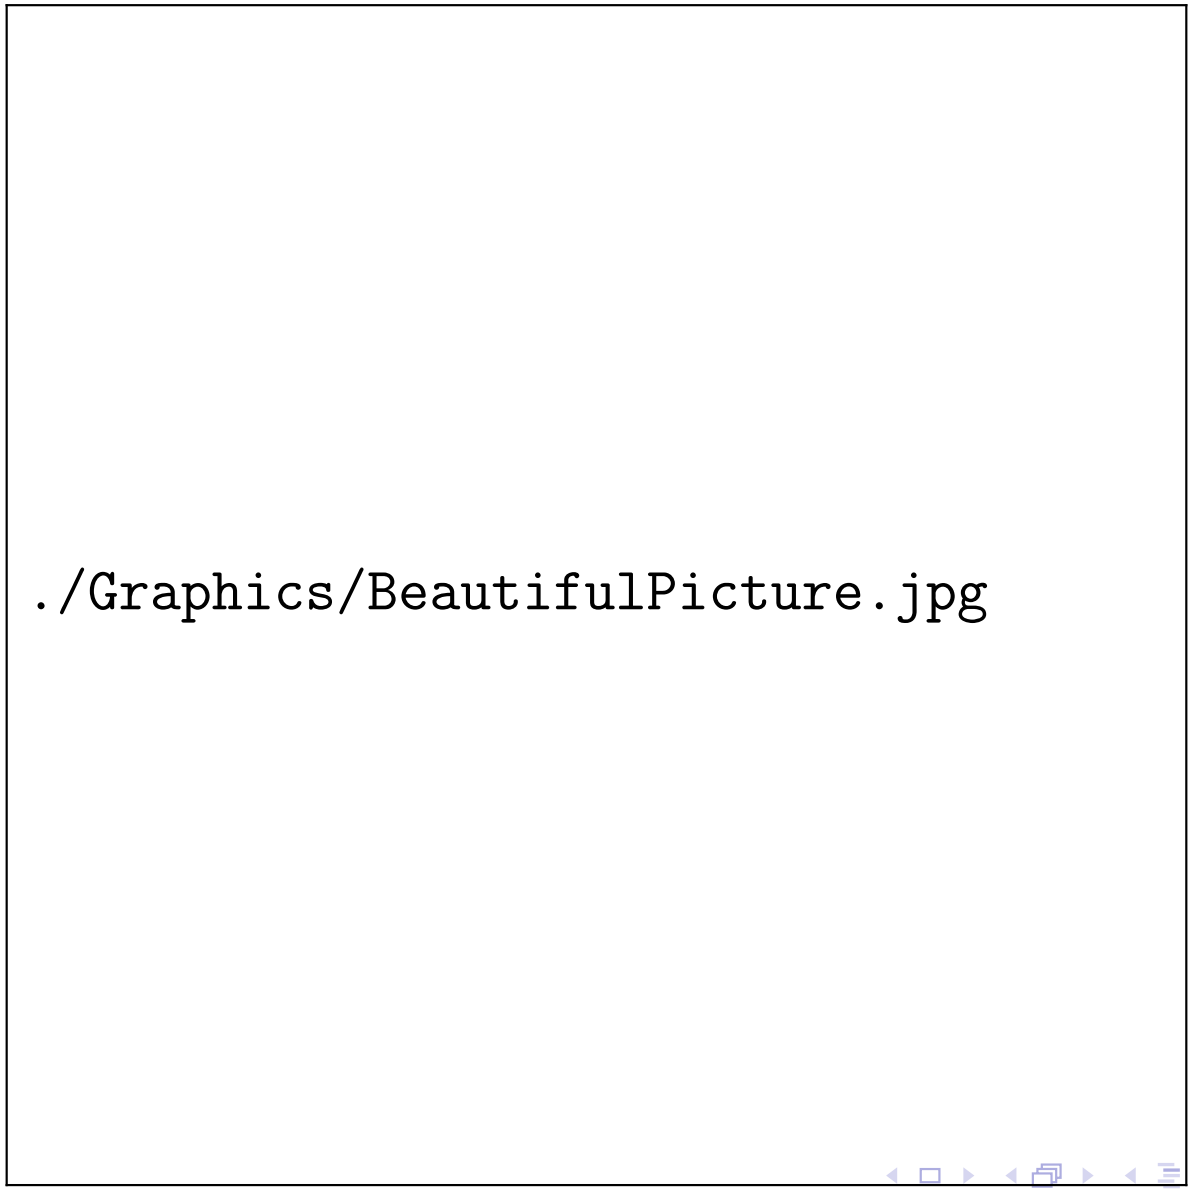

Section 2 Subsection 3: Multiple Equations

$$|\Psi\rangle = \frac{1}{\sqrt{N}} \sum_{i}^{N} e^{i\vec{k}\cdot\vec{R}_i} |s_i\rangle \tag{2}$$

$$\frac{1}{\sqrt{N}} \sum_{j=1}^{N} \left[H_{ij} e^{i\vec{k}\cdot\vec{R}_j} - \varepsilon e^{i\vec{k}\cdot\vec{R}_i} \right] = 0 \tag{3}$$

As you can see in equation 3. Chcek how i referred to this equation in code.

Add Picture or Figure

Gambar 1: This is How you add a beautiful picture
