1 Introduction

This is a template. You can make references to things like latexsource, which will show up in the bibliography (bibsect.)

2 Equations

Here is an inline equation: F=ma. Below is a block equation which we can label as (1).

$$a^2 + b^2 = c^2 \tag{1}$$

3 Figures and tables

figtest is an example figure.

tabletest is an example table.

Table 1: An example table.

Heading 1	Heading 2	Heading 3
1	2	3
4	5	6
7	8	9

4 Code

Below is some C++ code.

```
tmp<fvVectorMatrix> tUEqn
(
        fvm::div(phi, U)
        + MRF.DDt(U)
        + turbulence->divDevReff(U)
        ==
        fvOptions(U)
);
```

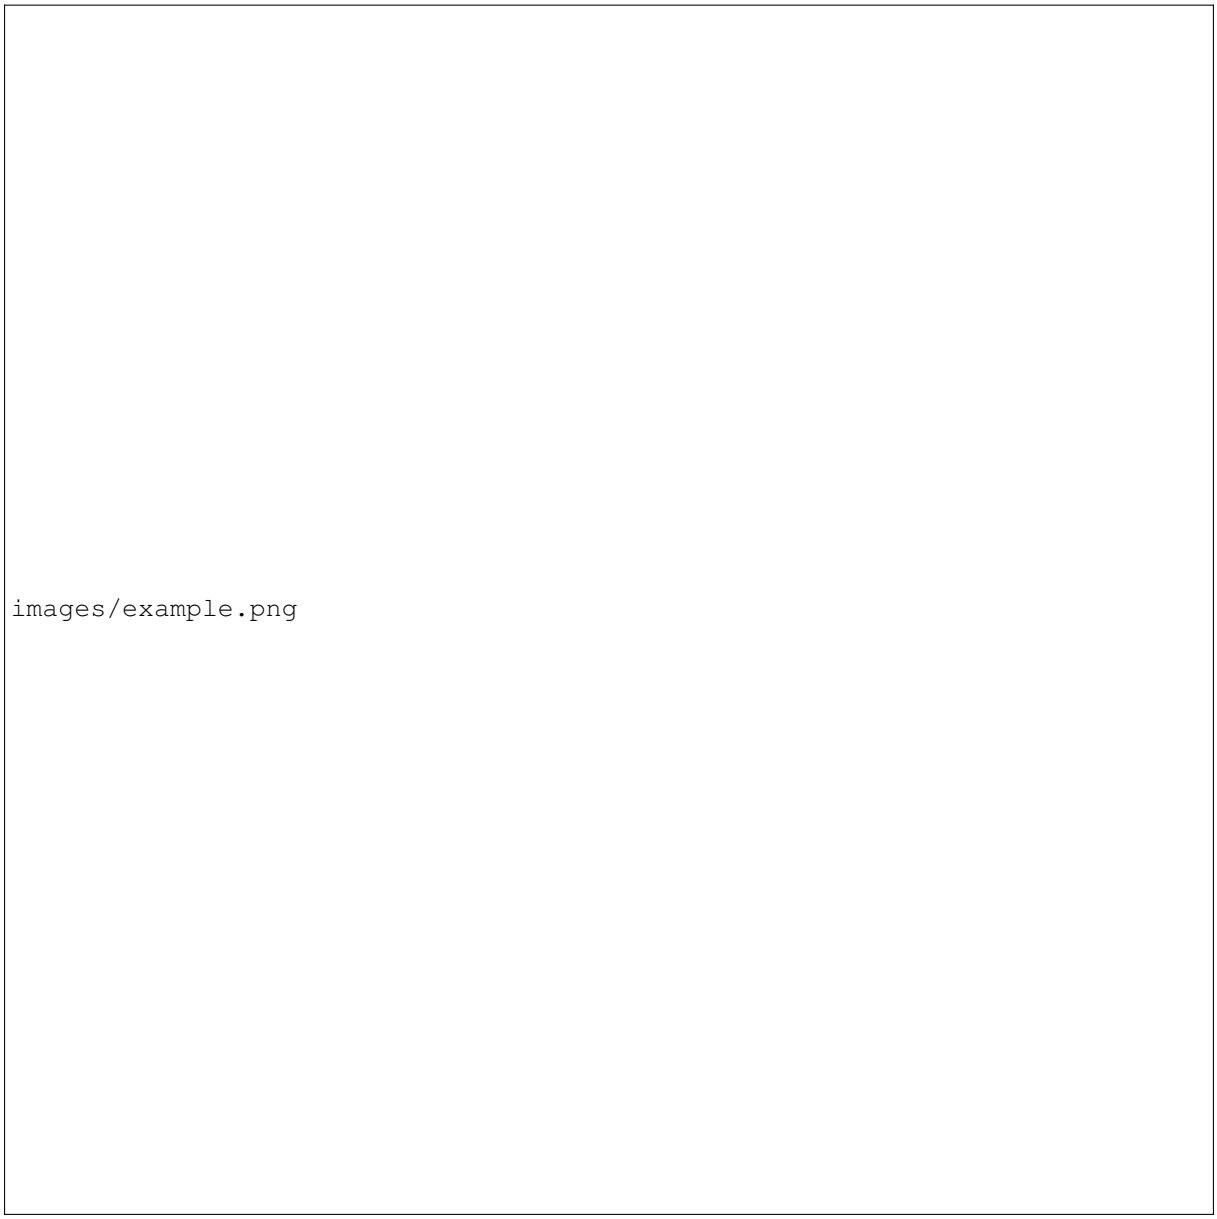

Figure 1: An example image.
