**Abstract**

Place the text of the abstract here. Headings come automatically.

Put text of the acknowledgments here.

[0.5in]

This is the Title of the
First Chapter

This is a sample document for the Auburn AuburnAuburn University LaTeX style-files known as `aums` (for Master's papers) and `auphd` (for Ph.D.'s). The appendix contains some of the history of this project, including contact information for the authors.

Site administrators should upgrade to LaTeX2e; however, the style files should work with the older LaTeX. The style files should be available on mallard. The current release is available by anonymous ftp to ftp.dms.auburn.edu in the directory aums (on-campus computers may also retrieve these from `http://www.dms.auburn.edu/manuals`). Most users will need either Lamport's book [7] or Hahn's book [1].

If you do not need the List of AbbreviationsLoAList of Abbreviations, comment the nomencl package and associated nomenclature commands. This is an example theorem.

## 1 This is an example of a section heading

This is some text which follows the section heading. You can find the data in Table 1.

| | Multicolumn Heading 1 | | |
|---|---|---|---|
| Heading 1 | Heading 2 | Heading 3 | Heading 4 |
| 1 | 19, 20 (19.5) | NA | NA |
| 3 | $\infty$* ($\infty$) | 18, 15 (16.5) | 9, 9 (9) |
| 5 | 23, 18 (20.5) | 16 (16) | 7, 7, 8 (7.33) |
| *Some random comment for the whole table. | | | |

Table 1: Some Table of data

### 1.1 This is a subsection heading

Text after the subsection. And we have a figure, Figure 3.

New Chapter Another theorem.

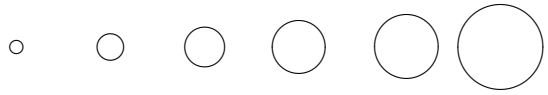

Figure 1: Hollow circles 1

[double distance=0.20mm,very thick, fill=white, draw=black] (0cm,0cm) rectangle (5cm, 2.5cm); (2.5in,0in) circle (3pt);

Figure 2: Some TikZ picture.

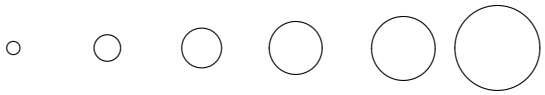

Figure 3: Hollow circles

*Appendices

Notes on the style-file project

These style-files have been modified by Christopher Wilson to support the new Electronic Thesis and Dissertation process. The following was written before the ETD guidelines update on Fall 2009. Changes to the original appendix have been shown in italics.

These style-files for use with LaTeX *were* maintained by Darrel Hankerson[1] and Ed Slaminka[2].

In 1990, department heads and other representatives met with Dean Doorenbos and Judy Bush-Crofton (then responsible for manuscript approval). This meeting was prompted by a memorandum[3] from members of the mathematics departments concerning the *Thesis and Dissertation Guide* and the approval process. There was wide agreement among the participants (including Dean Doorenbos) to support the basic recommendations outlined in the memorandum. The revised *Guide* reflected some (but not all) of the agreements of the meeting.

Ms Bush-Crofton was supportive of the plan to obtain "official approval" of these style files.[4] Unfortunately, Ms Bush-Crofton left the Graduate School before the process was completed. In 1994, we were revisiting some of the same problems which were resolved at the 1990 meeting.

In Summer 1994, I sent several memoranda to Ms Ilga Trend of the Graduate School, reminding her of the agreements made at the 1990 meeting. Professors A. Scottedward Hodel and Stan Reeves provided additional support. In short, it is essential that the Graduate School honor its commitments of the 1990 meeting. It should be emphasized that Dean Doorenbos is to thank for the success of that meeting.

Maintaining these LaTeX files has been more work than expected, in part due to continuing changes in requirement by the graduate school. The Graduate School occasionally has complete memory loss about the agreements

[3] Originally, the memorandum was presented to Professor Larry Wit. A copy is available on request.

[4] Followup memoranda gave a definition of "official approval." Copies will be sent on request.

of the 1990 meeting. If the Graduate School rejects your manuscript based on items controlled by the style-files, ask your advisor to contact the Graduate school (and copy to me) to urge cooperation.

Finally, there have been several requests for additions to the package (mostly formatting changes for figures, etc.). While such changes are not really part of the thesis-style package, it could be beneficial to collect these options and distribute with the package (making it easier on the next student). I'm especially interested in changes needed by various departments.
