1 Education

1.1 The University of Edinburgh

Bachelor of Engineering (Hons.) Computer Science September **2018** -**Present** | Edinburgh, UK **Classification: First Class** (Predicted)

2 Experience

Zesty LLC | Co-founder & Software Engineer Apr **2019** – Present | Riverside, CA

As a co-founder of the company, worked on shaping the product idea, technologies used and business plans.

Developed RESTful APIs in Falcon and Flask for the MVP and later lead the migration to FastAPI leading to 5-10x faster server response times.

Lead development of the user facing website for the MVP in ReactJS.

The website and the company has now been launched and funded , and the website been handling more than 1000 sessions/week without a problem.

University of Edinburgh | Teaching Support Sep **2019** – Present | Edinburgh, UK

Teach Introduction to Haskell, Intro to Linux, Cognitive Science, Computation and Logic and general programming concepts to a cohort of over 400 students.

Marked and assisted in conduction of the exam.

WorldQuant LLC | Research Consultant Jun **2019** - Oct **2019** | Remote

Selected to be a part of the research consultant programme after breaking into the top 1 percentile of participants of the WorldQuant challenge.

Created algorithm-based models using Python and propriety libraries that seek to predict movements of global financial markets.

3 Projects

EasyShop | NodeJS, Python, APIs, Azure Cloud Nov **2018**

EasyShop is a chabot to find products using pictures and get best possible deals.

Researched and found multiple third party APIs to accomplish our objectives and integrated it into our application by building a pipeline to move information efficiently.

The payment processing was done with the integration with Visa API .

The whole end to end solution is deployed on the Azure cloud and can be accessed on any social messaging service.

LinguaStream | Python, Tkinter, APIs, Google Cloud Apr **2019**

LinguaStream is a real time translation and transcription service along with an analysis and reference platform.

Speech to Text transcription and translation are done through Google Cloud APIs.

Captioning service is written in Python using tkinter, APIs are made using the FastAPI library.

4 Skills

4.1 Programming

Over 5000 lines: Python • Java • C/C++ • LaTeX
Over 1000 lines: Ruby • Haskell • Javascript
PostgreSQL • Neo4J
Familiar: Flutter • ReactJS • MySQL • Shell

4.2 VCS & Build Tools

Git • TravisCI •Jenkins • Github Actions

4.3 Cloud Services

Familiar: AWS • GCP • Azure

5 Awards

2019 DigiEduHack
2019 HackKosice
2019 Cyber Defence Exercise
2018 Local Hack Day
2018 Oxford Hack
2018 Glasgow Hack
2017 DPS Noida

6 Travel & Conference Grants

$250 ELC, Edinburgh
$250 PenApps, Philadelphia
£150 Algothon, London
€150 CEE Hacks, Prague
€150 DENEFF EE Hack, Berlin
€120 HackUPC, Barcelona
£75 Hack Cambridge
€75 Junction, Helsinki

7 Coursework

Algorithms and Data Structures
Computer Systems
Data Analysis
Machine Learning
Software Testing
Computer Simulation
Functional Programming
OOP Programming
Software Engineering
Numerical Computation
Linear Algebra
Discrete Mathematics

8 Activities

EU Programming Society
EU Trading and Investment Club
CompSoc
