ACKNOWLEDGEMENT

The authors must acknowledge any person and/or institute who have contributed to their Thesis and Project work.

ABSTRACT

The abstract must present what the authors have done; what are the novelty aspects; what is the significance of their work; how they designed and performed the experiment; measurement and computation methods, apparatus; boundary conditions for simulation and analysis based works; what have they got; lastly, the physics behind these findings must be mentioned. Approximate word limitations are 250-300 words.
