Remember to modify the information above.

**The following will give you an overview of what you can do with this template.**

Type your problem here.
Personally I recommend Mathpix (https://mathpix.com/), which can easily export your Problem-Book.pdf to LaTeX code.

**Solution.** Write your solution here.

Example of equations. $x + 1 = 2$. Or

$$x - 1 = 0$$

Example of a list of equations. x = 1
y = 2

Example of a matrix.

$$(1)001$$

Example of a lemma. This is a lemma.

Example of a proof. Write your proof here.

Example of including a picture.

Example of referring to a piece of code. [language = python]Program Solution.py

| | | Mean | SD |
|---|---|---|---|
| Example of a table. | Fall 2077 | 7.046512 | 1.714552 |
| | Fall 1977 | 9.102941 | 1.568919 |

Overall, this is a quite basic template for assignments, and above are only some basic features. I included enough packages and set a few environments. You may modify them or add features to fit your personal preference. Enjoy using it!
