Abstract

This is an *unofficial* LaTeX template for ARA proposals created based on the official docx template in 2023 [**?**]. Please carefully read the official instructions when using this template.

research, funding, proposal

1 Introduction

Significance of the research and prior work.

2 Methods

Your technical approach.

3 Expected Results

Please include milestones with timeline estimates, such as for datasets, code releases, technical reports, publications, applications, presentations, etc.

4 Funds Needed

Please provide justification supporting the designated amounts for cash funding and AWS Promotional Credits. For cash funding, please do not include indirect expenses which are not incurred solely for your project. For AWS Promotional Credits, please list the AWS products you plan to use.

5 Additional Information

If the CFP you are applying for requests addition information in the Proposal requirements section, please provide the information here.

The following ones are questions for *Automated Reasoning Call for Proposals — Fall 2023*.

Does your work target analysis of protocols, code, or configuration? [. . .]

Yes.

What are the current applications of your work? (e.g., libraries, codebases, or industry code).

Yes.

What are potential applications of your work to Amazon?

Yes.

What assumptions are made by your work? [. . .]

Yes.

If your work involves the development and maintenance of a tool [. . .]

Yes.

6 CV of PI

One-page CV of PI (professional title, experience, etc.), only to include the 5-6 most relevant papers to this proposal. One-page CV of Co-PI (optional).

7 Previously Funded Project Summary

If you or someone on your project team has received cash funding or AWS Promotional Credits directly or indirectly from Amazon within the past 3 years, please answer the questions below. (Include funding from Amazon through your institution or from the NSF-Amazon Fairness in AI funding grant.)

- *Project title:*
- *Funding amount and time:*
- *Funding source:*
- *Who was this funding for?*
- *If AWS Promotional Credits were provided, how much is left?*
- *Please provide a brief summary of the results, papers, and open-source software enabled:*
