BULLET BACKGROUND PAPER

ON

WRITING BULLET BACKGROUND PAPERS

PURPOSE

Discuss the functions, format and tips for building a Bullet Background Paper (BBP). The purpose statement informs readers on both the purpose and main points of the paper. It may be a single sentence, as in this example or a short paragraph in length.

BACKGROUND

Concise background information on a single idea

More details on the proceeding statement

Even more details of the 2nd level statement.

Use 2nd and 3rd levels sparingly

Chronological of a problem

DISCUSSION

Flexibile to save space and/or conform to a user's needs

Section can be titled "Function" or "Format" or "Tips" or "Details" or "Discussion"

If using 2nd and 3rd level, make sure there are at least two bullets

Such as, this example

This should be the "main course" of the document!

RECOMMENDATIONS

This section can be titled "Conclusion" as it ends the document

Recommendations are good for moving forward but write to the intended audience

Be actionable, measurable, and attainable!

Try to list OPR and OCRs per recommendation
