Chapter

Dropped caps at the start of the first paragraph. Make sure the text you put in the first paragraph exceeds two lines, otherwise the dropped caps will not look as good as intended.

Indent begins on second paragraph. Dummy text: [1]

1 Section

Dummy text: [1]

1.1 subsection

Dummy text: [1]

1.1.1 subsubsection

Dummy text: [1]

Floats

2 Figures and Minipages

An example of a figure is shown in Figure 1. The recommended width of the figure is $0.9\times$\linewidth, and the recommended width:height aspect ratio is $1.41:1$ (i.e. A4 paper)

Additionally, one can create a minipage for extra information like biography as shown in the following:

Dummy text: [1]

3 Tables

Creating tables is the same as any other latex documents, as shown in Table 1.

Dummy text: [1]

Equations Just normally input your equations as either inline one: $E = h\frac{\lambda}{c}$ or with equation environment (equation* to remove numbering):

[1] acquired from the official website of IPS at https://www.waseda.jp/fsci/gips/en/about/overview-2/

Table 1: An example of a floating table.

$$
\begin{cases}
{}_{\partial\Omega}\mathbf{E} \cdot d\mathbf{S} = \dfrac{1}{\varepsilon_0} \iiint_{\Omega} \rho dV \\
{}_{\partial\Omega}\mathbf{B} \cdot d\mathbf{S} = 0 \\
\oint_{\partial\Sigma} \mathbf{E} \cdot d\boldsymbol{l} = -\dfrac{d}{dt} \iint_{\Sigma} \mathbf{B} \cdot d\mathbf{S} \\
\oint_{\partial\Sigma} \mathbf{B} \cdot d\boldsymbol{l} = \mu_0 \left(\iint_{\Sigma} \mathbf{J} \cdot d\mathbf{S} + \varepsilon_0 \dfrac{d}{dt} \iint_{\Sigma} \mathbf{E} \cdot d\mathbf{S} \right) [\mathbf{?}]
\end{cases}
\tag{1}
$$

r.3

Waseda University Graduate School of Information, Production and Systems (IPS) is a graduate school that has no corresponding undergraduate department established within the Kitakyushu Science and Research Park area in 2003 as the base for Waseda University to expand its presence in Asia. With three fields of study, including Information Architecture, Production System, and Integrated Systems, IPS undertakes academic research in the technological fields that society currently requires, and strives to attain a sustainable society through the use of technology.
