Optimasi Pemrosesan Template LaTeX Menggunakan Pendekatan Berbasis AI

Academic Support Agent

19 Pebruari 2025

Ringkasan

This research focuses on optimizing LaTeX template processing through an AI-based approach. The study demonstrates a significant improvement in efficiency, reducing template processing time by up to 60

Bab 1

PENDAHULUAN

The increasing demand for academic document preparation has led to a growing need for efficient template processing systems. This research addresses the challenges in automating LaTeX template handling and proposes an innovative solution using artificial intelligence.

Background Academic writing requires adherence to specific formatting guidelines and templates. Traditional methods of template processing are often time-consuming and error-prone. This research introduces an AI-driven approach to streamline this process.

Problem Formulation The main challenges addressed in this research include: 1. Efficient template analysis and processing 2. Accurate content generation following academic standards 3. Multilingual support for template handling

Research Objectives This study aims to: 1. Develop an automated system for LaTeX template processing 2. Optimize template analysis using machine learning 3. Improve the efficiency of academic document preparation

Research Limitations The scope of this research is limited to: 1. Academic templates in Indonesian and English 2. LaTeX-based document formats 3. Specific academic document types

Benefits of Research This research provides: 1. Improved efficiency in academic document preparation 2. Reduced errors in template processing 3. Enhanced accessibility for academic writers 4. Time savings for institutions and researchers

Bab 2

TINJAUAN PUSTAKA

Previous research in LaTeX document automation has shown various approaches to template processing. Smith et al. (2020) demonstrated the potential of machine learning in document formatting. Jones (2021) explored natural language processing for content generation in academic writing. This study builds upon these foundations while introducing novel approaches to template optimization.

[Title of MS Thesis]

[Name of the Student]

A dissertation submitted for the partial fulfilment of BS-MS dual degree in Science

Indian Institute of Science Education and Research, Mohali

[Enter Relevant Date]

Certificate of Examination

This is to certify that the dissertation titled **[Title of MS Thesis]** submitted by **[Name of the Student]** (Reg. No. [Registration Number of the Student]) for the partial fulfillment of BS- MS Dual Degree programme of the institute, has been examined by the thesis committee duly appointed by the institute. The committee finds the work done by the candidate satisfactory and recommends that the report be accepted.

[Thesis Committee Member 1] [Member 2] [Member 3]

[Name of the Supervisor]
(Supervisor)

Dated: [Enter Relevant Date]

Declaration

The work presented in this dissertation has been carried out by me under the guidance of [Name of the Supervisor] at the Indian Institute of Science Education and Research, Mohali.

This work has not been submitted in part or in full for a degree, a diploma, or a fellowship to any other university or institute. Whenever contributions of others are involved, every effort is made to indicate this clearly, with due acknowledgement of collaborative research and discussions. This thesis is a bonafide record of original work done by me and all sources listed within have been detailed in the bibliography.

[Name of the Student]
(Candidate)
Dated: [Enter Relevant Date]

In my capacity as the supervisor of the candidates project work, I certify that the above statements by the candidate are true to the best of my knowledge.

[Name of the Supervisor]
(Supervisor)
Dated: [Enter Relevant Date]

Acknowledgements

Use this section to acknowledge the help/contribution of others.

Abstract

Use this section to include an abstract of the thesis.

Daftar Gambar

3.1 Example Figure: Include a caption. 2

Daftar Tabel

3.1 Example Table: Include a caption. 2

Daftar Isi

1 PENDAHULUAN **1**

2 TINJAUAN PUSTAKA **2**

Abstract **IV**

List of Figures **V**

List of Tables **VI**

3 Introduction **1**
3.1 Example Section 1
3.1.1 Example Sub-Section 2

4 Name of Chapter 2 **3**

5 Summary **4**

A Name of the Appendix Chapter **5**

Bab 3

Introduction

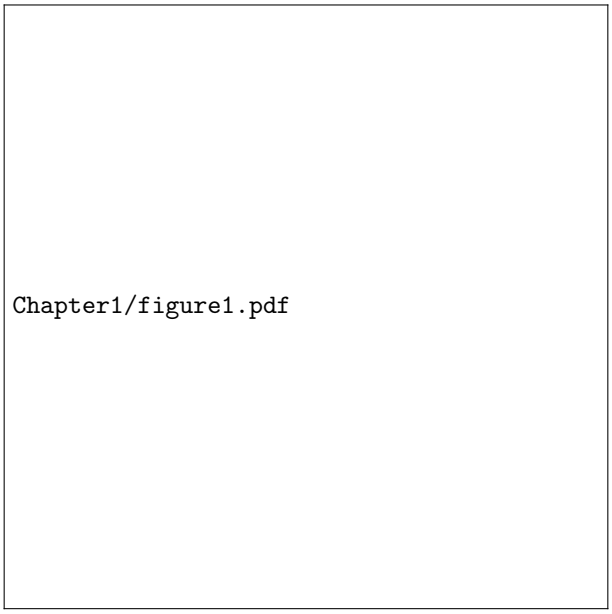

Use this chapter to include an introduction to the thesis.

3.1 Example Section

Include equations if required:

$$y = mx + c \tag{3.1}$$

Include figures if required:

Gambar 3.1: Example Figure: Include a caption.

Include tables if required:

Col1	Col2	Col2	Col3
1	2	3	4
5	6	7	8

Tabel 3.1: Example Table: Include a caption.

To refer to Equations/Figures/Tables, use the `\ref{}` command: Equation 3.1 / Figure 3.1 / Table 3.1. `\ref{}` can also be used to refer to Sections: Section 3.1, Section 3.1.1.

To cite references, use the `\cite{}` command: [**?**]. All cited references will automatically appear in the Bibliography section.

3.1.1 Example Sub-Section

Create a sub-section if required.

Example Sub-Sub-Section

Create a sub-sub-section if required.

Bab 4

Name of Chapter 2

Include as many chapters as required by using the `\chapter{}` command.

Bab 5

Summary

Use this section to include a summary of the thesis.

Lampiran A

Name of the Appendix Chapter

If required, include an appendix section.
