Left, right, and bottom margins should be 1.9 cm and the top margin 2.5 cm. The font for the main body of the text should be Times 10 pt with interlinear spacing of 11 pt. 2.1 General Instructions for the Final Paper

The unprotected PDF files will appear in the on-line proceedings directly as received. Do not print the page number.

3 Page Numbering

Please do not include page numbers in your Paper. The definitive page numbering of papers published in the proceedings will be decided by the organising committee.

4 Headings / Level 1 Headings

Headings should be capitalised in the same way as the main title, and centred within the column. The font used is Times New Roman 12 bold. There should also be a space of 12 pt between the title and the preceding section, and a space of 3 pt between the title and the text following it.

4.1 Level 2 Headings

The format for level 2 headings is the same as for level 1 Headings, with the font Times New Roman 11, and the heading is justified to the left of the column. There should also be a space of 6 pt between the title and the preceding section, and a space of 3 pt between the title and the text following it.

4.1.1 Level 3 Headings

The format for level 3 headings is the same as for level 2 headings, except that the font is Times New Roman 10, and there should be no space left between the heading and the text. There should also be a space of 6 pt between the title and the preceding section, and a space of 3 pt between the title and the text following it.

5 Citing References in the Text

5.1 Bibliographical References

All bibliographical references within the text should be put in between parentheses with the author's surname followed by a comma before the date of publication,[**?**]. If the sentence already includes the author's name, then it is only necessary to put the date in parentheses: Martin-90. When several authors are cited, those references should be separated with a semicolon: [**?**, **?**]. When the reference has more than three authors, only cite the name of the first author followed by "et. al." (e.g. [**?**]).

5.2 Language Resource References

5.2.1 When Citing Language Resources

When citing language resources, we recommend that to proceed in the same way as for bibliographical references. Thus, a language resource should be cited as speecon.

6 Figures & Tables

6.1 Figures

All figures should be centred and clearly distinguishable. They should never be drawn by hand, and the lines must be very dark in order to ensure a high-quality printed version. Figures should be numbered in the text, and have a caption in Times New Roman 10 pt underneath. A space must be left between each figure and its respective caption.

Example of a figure enclosed in a box:

Figure 1: The caption of the figure.

Figure and caption should always appear together on the same page. Large figures can be centred, using a full page.

6.2 Tables

The instructions for tables are the same as for figures.

Level	Tools
Morphology	Pitrat Analyser
Syntax	LFG Analyser (C-Structure)
Semantics	LFG F-Structures + Sowa's Conceptual Graphs

Table 1: The caption of the table

7 Footnotes

Footnotes are indicated within the text by a number in superscript[1].

[1]Footnotes should be in Times New Roman 9 pt, and appear at the bottom of the same page as their corresponding number. Footnotes should also be separated from the rest of the text by a horizontal line 5 cm long.

10 Acknowledgements

Place all acknowledgements (including those concerning research grants and funding) in a separate section at the end of the paper.

11 Providing References

11.1 Bibliographical References

Bibliographical references should be listed in alphabetical order at the end of the paper. The title of the section, "Bibliographical References", should be a level 1 heading. The first line of each bibliographical reference should be justified to the left of the column, and the rest of the entry should be indented by 0.35 cm.

The examples provided in Section 12 (some of which are fictitious references) illustrate the basic format required for papers in conference proceedings, books, journal articles, PhD theses, and chapters of books.

11.2 Language Resource References

Language resource references should be listed in alphabetical order at the end of the paper.

Appendix: How to Produce the `.pdf` Version

In order to generate a PDF file out of the LaTeX file herein, when citing language resources, the following steps need to be performed:

- Compile the `.tex` file once
- Invoke `bibtex` on the eponymous `.aux` file
- Compile the `.tex` file twice
