James K. Olthoff, Performing the Non-Exclusive Functions and Duties of the Under Secretary of Commerce for Standards and Technology & Director, National Institute of Standards and Technology

Certain commercial entities, equipment, or materials may be identified in this document in order to describe an experimental procedure or concept adequately. Such identification is not intended to imply recommendation or endorsement by the National Institute of Standards and Technology, nor is it intended to imply that the entities, materials, or equipment are necessarily the best available for the purpose.

Publications in the SP 1200 subseries include written procedural methods in the design and implementation of experiments that ensure successful replication of results by others. Publications may include detailed procedures, lists of required equipment and instruments, information on safety precautions, the calculation of results and reporting standards.
