Assignment Title

Name: _____
Date: _____

Instructions

Answer **all** the questions and return to the teacher by the end of the week. Section A questions shouldn't cause you any trouble. Section B is designed to be more challenging.

Section A

1. Define the term 'minimal polynomial'.

   _____

2. Evaluate the following integral $\int_2^x \sinh 2y \, \mathrm{d}y$ in the case where:

   (a) $x = 5$

   _____
   _____
   _____

   (b) $x = 9$

   _____
   _____
   _____

3. Find the determinant of the following 3x3 matrix:

Section B

1. Determine the following limit: $\lim_{x \to +\infty} \frac{\sin x}{x^2}$

2. Prove Pythagoras' Theorem.

3. Describe the Gram-Schmidt Algorithm.
