Bab 4

Literature Review

Each chapter is to begin with a brief introduction (in 4 or 5 sentences) about its contents. The contents can then be presented below organised into sections and subsections.

Technical writing is writing or drafting technical communication used in technical and occupational fields[**?**], such as computer hardware and software[**?**], engineering, chemistry, aeronautics, robotics, finance[**?**], medical, consumer electronics, biotechnology, and forestry. Technical writing encompasses the largest sub-field in technical communication. See figure **??** that shows the autonomous systems in Internet.

Gambar 4.1: Autonomous System Hierarchy

4.1 section1

[2]

4.1.1 title 2

[3]
The system is described by the equation **??** below. Here y is the ordinate and x is the abscissa , m is the slope and c a constant.

$$y = mx + c \tag{4.1}$$

Page centered and unnumbered multiple equations. The * symbol supresses equation numbering.
2x - 5y = 8
3x + 9y = -12
Side by side figures can be created using this environment. See fig **??** below.

Bab 6

Results and Discussion

Each chapter is to begin with a brief introduction (in 4 or 5 sentences) about its contents. The contents can then be presented below organised into sections and subsections.
